

## No Mandatory field

Hello,

Thanks for the great component.

I would like to know if there is a possibility and how can I make some fields in the booking form, optional.

I mean the Address, Town, Phone fields to be optional to indicate and not mandatory.

Thanks in advance

hi

open the file component/com\_joomloc/views/loc/tmpl/single.php

and in the javascript delete the control of the field you want..
