

## How can I amend the CSS

Posté par katethomas - le 12 Juin 2012 à 10:46

---

Can you tell me where I can get rid of the white borders around each area of text, I have looked in the joomloc.css, but it is not there.

[splashpr.com.au/manlybeachapartments/ind...p;id=1&Itemid=10](http://splashpr.com.au/manlybeachapartments/ind...p;id=1&Itemid=10)

Hi

joomloc use for each text area an html and by default need to be white in your template.

then try to add for example in joomloc.css, at the end of file, a class somtehing like

```
fieldset.adminform {  
border:none;  
}
```
